SRD's

SCHOOL RESOURCE DEPUTIES

On January 16, 2025, deputies from the Moreno Valley Sheriff Station's, School Resource Team, executed a search warrant on a vehicle and a residence suspected of selling drugs to students in the Moreno Valley Unified School District. One suspect was arrested, and a search warrant was written for another suspect.

The search yielded the following evidence:

- 14.2 oz of marijuana
- 9 nicotine vape pens
- 13 bags of edible THC
- 110 THC vape pens
- \$2,500 in cash from recent drug sales

It was learned these suspects had been communicating with students as young as 11 years old through social media and arranging to meet these juveniles at specific locations or their residences. While some people may read this and think there is nothing wrong with nicotine or THC, we want to remind you that children are the ones using these products and it is extremely dangerous. Several students have already had medical emergencies on campuses and had to be transported to the hospital after vaping. Some students have even started seizing and lost consciousness after inhaling too much THC and/or nicotine from vapes. Along with those dangers, vapes have also been found to be placed with other deadly chemicals like fentanyl.
